- ☐ 3-Non-Remedial, Human Caused Condition.
- ☐ 4-Hydrologic Modifications.
- ☐ 5-Natural Physical Features.
- ☐ 6-Substantial, Widespread Social and Economic Impact.

Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in June 2005 and no WBCR was observed. The stream did not meet the maximum depth or average depth criteria at any of the 2 sites. The stream was very shallow. No interviews were conducted. Because of the shallow depth of the stream, the committee recommends removing the WBCR designation. However, since there were footprints on the bank and the stream flows close to a park and residential area, the committee recommends this stream be considered for Secondary Contact Recreation.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive
